I am excited to announce to you that the ***Our Faith – Our Hope*** campaign has reached a total of \$41,600 in pledges from a total of 12 gifts. This total represents 35% of our overall goal. We have an average gift of \$3,500. I thank you all for your generosity and time.

As I have mentioned before, our remaining parish families will be contacted in the coming weeks, and I thank you in advance for listening to the presentations of our volunteers. Again, there is a tremendous amount of information to digest, and I am confident that you will find their assistance in answering your questions very helpful. Below you will see another important need that the ***Our Faith – Our Hope*** campaign will address – Communicating in a Wireless World.

Communicating in a Wireless World.....\$4,000,000

Communication technologies have and will continue to play a critical part in the way we live. Technology is fundamentally changing the nature of our society, and rapidly improving the way we can communicate to each other.

The Anglican community needs to embrace the innovative technologies that will help us better connect with our members and the local community to support God's mission. These advancements will allow us to reach a broader audience and bring God's message to new generations and help us share the Good News with new people. Online technologies, such as websites and social networking sites, are an excellent way for churches to reach out to seekers, newcomers, and long-time parishioners alike. Also, effective communication with younger Anglicans must include the use of new

technologies and trends if we wish to engage them in ministry.

Preparing our Church for the future will require new knowledge, new skills, new approaches, and new attitudes. We must assess on an ongoing basis what is required for effective Diocesan and parish communication.

In order to utilize these new ways and new media to carry the message of God to everyone, ***Our Faith – Our Hope*** will support the following enhancements:

- Equip the Diocese and parishes with video/web conferencing capabilities;
- Improve and expand existing publications;
- Offer Internet podcasts and live streams;
- Train staff on new technology;
- Purchase advanced software to allow capability for sending targeted email; and,
- Assess new technological developments.
